

different indentations used to indicate relationships. Alternatively, the application might be misprinted as a patent with identical indentations for the paragraphs. To avoid both of these possible ambiguities in an issued patent, outline-like numbers have been added to claim 13 for clarity. No substantive change has been made to the claim.

As for the remaining claims, the only amendments made are those necessary to correct dependency and to provide proper antecedent basis. All claims that were rejected have been eliminate and will be pursued in a continuation application. Reconsideration and early indication of the allowability of all claims now present is requested

## II. Conclusion

Applicant submits that all pending claims are now allowable. Should the Examiner have any questions regarding the present application, he is invited to call Applicant's representative, Richard Neeley, at (510) 576-2360.

Respectfully submitted,
